SECTION I

GENERAL DATA

1. The Marine Corps Bulletin (MCBul) 4610 provides fiscal year (FY) 2007 Transportation Account Code (TAC) data for both freight and personal property shipments for all Marine Corps activities as well as all shippers of Marine Corps-sponsored movements.
2. The MCBul 4610 has been extensively changed for FY07. The document has been re-formatted to allow for quick reference and is available via the HQMC website in MS Excel format (to be used electronically), as well as the traditional MS Word formatted file. The Excel version of the MCBul 4610 will allow users to simply click on the section or page that they wish to view in determining appropriate TAC application. In addition, a TAC matrix has been developed that will assist users when TAC selection or validation is unclear. All readers are requested to thoroughly review this Bulletin to ensure all appropriate personnel are aware of the current policy and procedures affecting movement of Marine Corps-sponsored cargo and personal property shipments. Shipping activities responsible for the movement of Marine Corps-sponsored materiel shall apply only the appropriate TAC and NOT the Line of Accounting (LOA) or Standard Document Number (SDN) on applicable Government or Commercial Bills of Lading (GBL/CBL) transportation documentation. Using only the TAC on shipment documents will simplify the documentation process and help to align commercial movement practices with the Defense Transportation System (DTS) process.
3. The MS Excel version of the MCBul 4610 is available for download at <http://hqinet001.hqmc.usmc.mil/i&L/v2/LP/LPC/LPDMcBul.htm>. To use this file, simply download to the user's computer, open, and follow the instructions on the worksheet tabs. From this quick-reference, easy to use tool, a user can determine or validate the appropriate TAC based upon the shipment requirement. Any problems or questions pertaining to the use of the MS Excel file can be directed to the MC TAC Coordinator at DSN 225-7930/8129 or commercial (703) 695-7930/8129, or emailed to roderick.callewaert@usmc.mil.
4. A TAC will apply to the movement of Marine Corps materiel throughout both the commercial transportation system as well as the Defense Transportation System (DTS). All USMC transportation shipments will have a TAC assigned from HQMC for both movements within the DTS or within CONUS using commercial carriers.

5. Most DoD shippers have established PowerTrack accounts to pay for the transportation charges for inland and commercial air cargo movements. PowerTrack is a transportation payment system owned by US Bank and is the DoD-approved payment system for commercial freight transportation bills. PowerTrack will be used increasingly due to the move throughout DoD to eliminate the use of GBLs and increase the use of CBLs in the movement of DoD cargo. All DoD shippers using the US Bank's PowerTrack billing system must use the four-digit TAC on the monthly billing statement in lieu of a LOA for transportation charges. Additional PowerTrack policy and guidance can be obtained by contacting the Marine Corps TAC Coordinator.

6. Non-PowerTrack CBLs will be submitted to Transportation Voucher Certification Division (TVCD), MCLB Albany, GA, with a Standard Form (SF) 1034 (Voucher for Disbursement and/or Collection). If there are numerous TACs, the Traffic Management Officer (TMO) should use the Summary of Accounting Data, NAVCOMPT Form 2035 to reflect this information. The TMO will ensure that the TAC is annotated prior to submitting to TVCD for certification for payment.

7. With the exception of personal property as identified in Sections VII and VIII, regardless of the year in which procurement is initiated, all transportation charges for the movement of Marine Corps materiel will be charged to the fiscal year in which the materiel actually moves. Charges for personal property will be made to the fiscal year identified on the member's permanent change of station (PCS) orders. The TAC-only policy as stated above is also applicable to personal property shipments. The goal is to standardize transportation documentation procedures at all TMO/ITO/PPSOs for both freight and personal property shipments.

8. Payments for accessorial charges for packing, crating, handling, and transporting will not be made on recurring reimbursement issues and non-reimbursable transfers of materiel, supplies, and equipment to other DoD components. This is not applicable to sales and transfers of materiel to the Military Assistance Grant Aid Program and the Foreign Military Sales (FMS) program. The NavCompt Manual, volume 3, paragraph 035963, contains this policy.

9. Procedures for the shipment of excess property along with guidance on agency responsibility for the payment of transportation charges are contained in MCO 4500.11.

10. HQMC LPD-4 maintains Marine Corps TAC data on an electronic TAC Database on the Internet. This database, the DoD Master TAC Reference Table, is the current source for all Service's TACs. The purpose of this TAC Table is to allow shippers the ability to determine if the TAC provided by the requester is a valid TAC. The Transportation Global Edit Table (TGET) will replace the DoD Master TAC Reference Table in the future and will be used by all DoD shippers to validate TACs similar to the current TAC Table. Subsequently, all shippers of Marine Corps-sponsored cargo and personal property must validate all TACs submitted for cargo movement prior to acceptance from customers. Any and all invalid TAC's will not be accepted by the TMO and the shipper should refer the customer to the sponsoring financial manager or service TAC coordinator for assistance.

a. The DoD Master TAC Reference Table can be accessed on the Internet at:
https://www.daas.dla.mil/login/login.asp?NEXT_LOCATION=../tacing/tac_login.asp (follow instructions on the screen).

11. TMOs will not accept a request for shipment without a valid TAC. It is the responsibility of the TMO to determine if the USMC TAC provided is the appropriate TAC. Any questions as to appropriateness should be forwarded to the applicable funds manager responsible for the TAC in question. As a last resort, contact the USMC TAC Coordinator for assistance. All Marine Corps TACs have associated transportation Lines of Accounting (LOAs). TMOs are responsible for validating all TACs regardless of which service the TAC belongs to, against the DoD Master TAC Reference Table (see preceding paragraph) prior to forwarding shipments into the DTS or into PowerTrack. Any issues involving use of LOAs instead of an assigned TAC will be brought to the USMC TAC Coordinator's attention.

12. All questions, clarifications, and issues regarding Marine Corps TACs can be directed to the MC TAC Coordinator at:

SECTION III

FIRST DESTINATION TRANSPORTATION (FDT) TAC'S

1. Definition: First Destination Transportation (FDT) is the transportation required to affect the delivery of materiel purchased with either procurement account appropriations or Operations & Maintenance, Marine Corps (O&MMC) appropriations from a procurement source to the first point of use or storage for subsequent distribution within the supply system.

Question: Is the shipment Navy Working Capital Fund (NWCF) materiel?

Answer: If yes, see Section VI, Navy Working Capital Fund. If no, the below applies.

NOTE: For local procurements (locally contracted purchases) using local O&MMC funds under FOB Origin terms of contract, with the exception of OCONUS units/activities, the cost of transportation will be made using local funds. See Section V, Locally Funded Transportation TACs, for the appropriate TAC.

2. FDT TACs:

TAC:	Purpose:
L100	Used for all Procurement, Marine Corps (PMC) FDT procured materiel as directed by MARCORSYSCOM (DFM).
L200	Used for all movements of Procurement Ammo, Navy/Marine Corps (PANMC) FDT procured ammunition as directed by Program Manager Ammo (PMAM).
L201	Movement of ammo (energetic) component parts from the point of manufacture to the point of assembly.

3. Points of Contact: Points of contact for FDT shipments based on the above table are:

- a. L100, LMAT, and LNGR financial issues - MARCORSYSCOM (Code DFM) 703-432-4408 (DSN 378).
- b. L100, LMAT, and LNGR operational issues - MARCORSYSCOM (PGD 16, CESS) 703-432-3177 (DSN 378).
- c. L200 Issues - MARCORSYSCOM (AM) 703-432-3106 (DSN 378).

SECTION IV

SECOND DESTINATION TRANSPORTATION (SDT) TAC'S

1. Definition: Second Destination Transportation (SDT) is the transportation required to effect movement of materiel from, to, or between service/agency activities worldwide. SDT is everything that is not considered FDT. Typically, once equipment/materiel is assigned a Table of Authorized Materiel Control Number (TAMCN), any further movement is normally funded by the below SDT TACs

NOTE: In determining which TAC to use, War TACs take precedence over other TACs. (See below, and CMC MSG DTD 041346Z APR 05, Subj: HQMC TAC ISO GWOT)

2. SDT Ammo movements: Commanders at all echelons will review their Class V(W) Training requirements based on their annual allowances and forecast their requirements in TAMIS-R by location per applicable users manuals.

For training at Marine Corps locations, properly forecasted requirements must be inputted at least 30 days prior to training date.

For training at Army locations, properly forecast requirements must be inputted to TAMIS-R prior to the "lockout period" defined by the MACOM policy and AR 5-13 as current month plus 2 months (If the lockout is 2 months, in July the lockout period is July, August, and September).

Activities failing to properly forecast routine ammunition requirements at Marine Corps Bases, Army Bases, or other locations will incur costs for premium shipping associated with that training.

MARCORSYSCOM Code 204 will charge premium-shipping costs to the unit's higher headquarters transportation TACs when activities fail to forecast.

Operation tempo may preclude full compliance with forecasting of Class V(W) training requirements. These exceptions should be coordinated with MARCORSYSCOM Code 204 as soon as the requirement becomes known. Premium shipments costs in support of emergent requirements will not be charged back to the higher headquarters TAC.

The POC for all SDT ToT Ammo TAC related issues is MARCORSYSCOM,
PM Ammo, Code PMM 2043: 703-432-3167 (DSN 378-3167)

3. SDT TAC Order of Precedence: Often times a shipment can fall into more than one Marine Corps SDT category. When this occurs, the order of precedence begins with War TACs. After the War category, the other seven categories would apply (based upon the specific program and requirement), and lastly, General Cargo (TAC MGEN). (NOTE: Program TAC categories listed below identify the programs and are not arranged in an hierarchical order e.g., After War TACs are considered, Marine Corps Community Service TACs are not to be considered next, rather the program category that best fits the purpose of the movement.)

a. War TAC Category.

b. Program TAC Categories (listing is not in order of precedence).

1. Marine Corps Community Service
2. Secondary Reparables
3. Ammunition
4. Maritime Prepositioning Ships (MPS)
5. Vehicles
6. Inspect, Repair Only As Necessary (IROAN)
7. General Services Administration (GSA)

c. General Cargo TAC Category.

4. General Cargo TAC: Marine Corps SDT shipments that do not apply to any of the first eight categories fall into the General Cargo category (TAC MGEN). Use TAC MGEN only when the requirements of the shipment do not fit into any other Marine Corps SDT TAC category.

5. SDT TACs:

LOCALLY FUNDED TRANSPORTATION TAC'S

1. Definition: The following TAC information pertains to local O&MMC funds used in the purchase of locally administered contracts; locally administered FedEx billings funded by local funds; and all other locally funded transportation costs where the responsible finance office is located at the installation/command level. In previous years, transportation costs associated with locally administered contracts were normally paid by the same funding that purchased the item/service.

2. Unit Property vs. Marine Corps Property: If the shipment is "Unit" property, select the appropriate TAC established for the installation from the TACs listed below. If the shipment is "Marine Corps" property (TAMCN assigned), select the appropriate SDT TAC from the table in Section IV.

SECTION VI

NAVY WORKING CAPITAL FUND (NWCF) TAC'S

1. Definition: The Navy Working Capital Fund (NWCF) funds the FDT transportation of Marine Corps-managed items identified in supply records, publications, and price lists by a management code of 1, 2, 3, 4, 5, or 6; and echelon code 8 or 9 (e.g., 28 or 29). NWCF materiel consists of consumable and reparable items. NWCF FDT covers the initial movement of materiel from a NWCF procurement for direct delivery to a customer. Any subsequent movement of Marine Corps-owned and Marine Corps-managed items will be considered SDT.

NOTE: SDT transportation for NWCF materiel is funded by DLA (i.e., movement from RSA storage points (MCLB Albany and MCLB Barstow) to Marine Corps customers worldwide).

2. Navy Working Capital Fund TACs:

TAC:	Description:
L811	Used for the FDT shipment of NWCF materiel when the procuring appropriation is 97X4930.NC2A and directed by MARCORLOGCOM.

3. Point of Contact:

a. MARCORLOGBASES (Code 460), Marine Corps Supply Management Activity Group (SMAG): 229-639-5670/6164/8567.

SECTION VII

PERSONAL PROPERTY (PPTY) TAC'S

1. Definition: The term ''Permanent Change of Station'' means the transfer or assignment of a member of the armed forces from a permanent station inside the continental United States to a permanent station outside the continental United States or from a permanent station outside the continental United States to another permanent station. It also includes an authorized change in home port of a vessel, or a transfer or assignment between two permanent stations in the continental United States when the member cannot, because of injury or the conditions of the orders, drive the motor vehicle between the permanent duty stations.

Effective 1 Oct 2005, Permanent Change of Station (PCS) orders for Marine Corps Active Duty members will be assigned a Standard Document Number (SDN), Customer Identification Code (CIC) and line of accounting containing fiscal year. Cost associated to PCS orders issued 01 Oct 2005 and subsequent, are to be recorded and tracked utilizing the SDN, CIC and LOAs assigned when possible. JFTR Chapter 5 prescribes PCS entitlements.

2. TACs. TACs, when required only, relative to the movement of Active Duty Marines HHGs (MPMC funded), for FYs 2000, 2001, 2002, 2003, 2004, 2005, 2006, and 2007 are constructed as follows per paragraphs 3 through 6, of this section:

a. First Character. The alpha "M" (to remain constant) is used to identify Marine Corps personnel (officer/enlisted) and/or owned or sponsored materiel.

b. Second and Third Characters. This alpha numeric combination of characters denotes the officer or enlisted status of the member and the description/purpose of the movement. In the second position, codes 2, 5, and 8 denote "officer" and codes 3, 7, and 9 denote "enlisted."

c. Fourth Character. This numeric character identifies the fiscal year noted and reflected on the member's Orders.

EXAMPLE: M567

"M" indicates Marine Corps service member, "56" signifies "Operational Mobile Home Allowance (Officer)," "7" signifies FY 07.

3. Types of PCS Moves within Marine Corps. As stated in paragraph 1 of this section, there are six types of PCS moves within the Marine Corps. The last 3 positions of the TAC associated with the entitlement will be in the first 3 positions of the cost code reflected on the member's orders. The first position of the TAC "M" will need to be added since it is a constant value. Below is a list of the TACs and associated entitlement use.

PCS Order Personal Property TACs:

The * in the forth position designates the fiscal year cited on PCS Orders. Example; M717 would be used for "Training ITGBL Transportation (Enlisted)" for orders issued during FY 2007.

Navy Funded Shipment TAC'S

1. Definition: The appropriate Navy TAC will be assigned to those Marine Corps shipments where the Navy is responsible for transportation funding. Navy TACs are published on the Master TAC Reference Table.

Questions: Is the shipment funded by the Navy Working Capital Fund (NWCF)?

Answers: If yes, see Section VI, Navy Working Capital Fund. If no, the below applies.

2. Navy Funded Shipment TACs:

TAC:	Description:
N663	Shipments of remains of deceased Marine Corps personnel.

NOTE 1: Transportation costs for the movement of aviation procured materiel funded by Navy appropriations are chargeable to the appropriate Navy TAC. See Navy TAC Coordinator for instructions.

NOTE 2: For MARFOR aviation unit movement, transportation costs for the movement of all organic supplies and equipment of the unit will be charged to the Navy funds/TAC as directed by the appropriate fleet commander.

NOTE 3: SDT costs for the movement of Marine Corps materiel funded under the appropriation 17*1106.27A0, Base Operations (Marine Corps Aviation Activities), are chargeable to O&MMC, TOT, as indicated on the SDT Section. All supplies and equipment in support of aircraft are funded by the Navy, however all ground support supplies and equipment (i.e., tugs, forklifts, etc.) known as yellow gear, will be funded by the Marine Corps.

SECTION XII

SPECIAL TAC'S

1. Definition: Special TACs are those assigned to movements of materiel for instances that are unique and for exclusive use. Special TACs are only to be used when directed by competent authority. Additionally, Special TACs are not necessarily for TMO/shipping activity use. See below for details.

2. Special TACs:

TAC:	Description:
M000	Non-significant TAC used by port personnel when shipments are received at ports with invalid or missing TACs, and then only after interjection of the shipper or Marine Corps clearance authority. NOT TO BE USED BY SHIPPING ACTIVITIES.
MEOM	MARFOREUR O&M TOT for MCPP-N DIR MARFOREUR

SECTION XIII

ITEM MANAGER SHIPMENTS

1. Definition: Item Manager-directed shipments are those shipments that are being moved as a result of a program or weapons system requirement. Item Manager movement requirements include scheduled repair cycles, special maintenance needs, equipment rotations, cross-leveling of materiel among bases or stations, new equipment fieldings and replaced equipment disposition.
2. Category: Marine Corps Item Manager-directed shipments will be assigned the applicable SDT TAC based upon individual shipment requirements. (See Section IV for details.)
3. Item Manager Purchases: If the transportation requirement is the result of Item Manager purchases from a vendor, the following applies:
 - a. If Procurement, Marine Corps (PMC) funds were used to procure the materiel, then PMC funds ("L" TAC) should be used to fund the transportation. (See Section III, FDT TACs, for details.)
 - b. If Operations & Maintenance, Marine Corps (O&MMC) funds were used to procure the materiel, then normally locally funded O&MMC funds ("M" TAC) should be used to fund the transportation of the materiel. (See Section IV, SDT TACs, for details.) There is a caveat regarding procurement of NBC equipment as outlined in Section III, in that O&MMC funding is used but it is tied to an "L" series TAC.
